

Extra-deep tread ■ Scrub-fighting pattern ■ Long-lasting traction

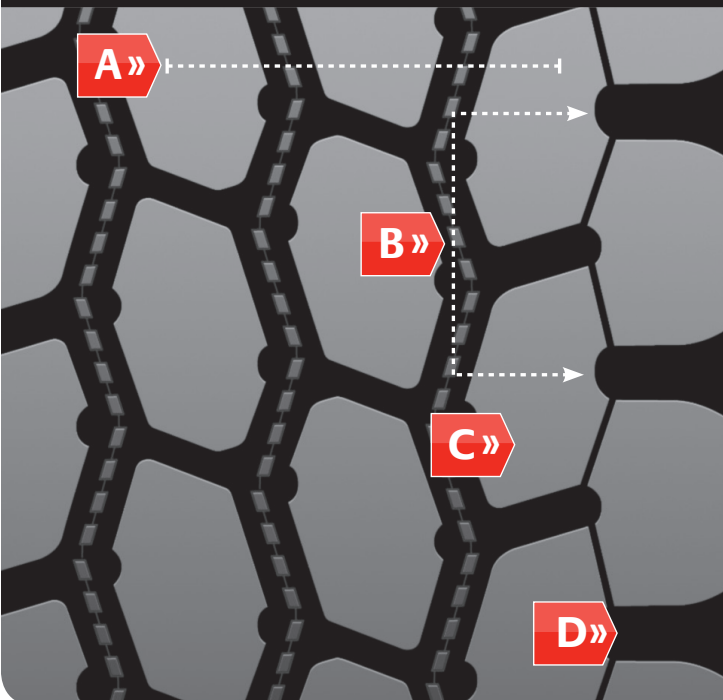

Precisely the right tire.

Built tough for your single drive axle tractors!

The new M770 radial is another of Bridgestone's innovative solutions for fleets who run single-axle tractors and demand long-lasting drives that fight irregular wear. Bridgestone M770 drive radials cut your cost per mile by providing an extra-deep tread, superior irregular wear resistance and a high-traction design preferred by drivers.

M770 Innovations

A Aggressive pattern

Solid grip on wet surfaces, even in mud and snow.

B Advanced block design

Special block side indentations and larger distance between them increases resistance to cracking and tearing.

C Innovative block design

Combats stresses that can cause block cracking, tearing and "heel & toe" irregular wear.

D Aggressive, open shoulder

Optimized for single-axle traction.

Stone rejector platforms

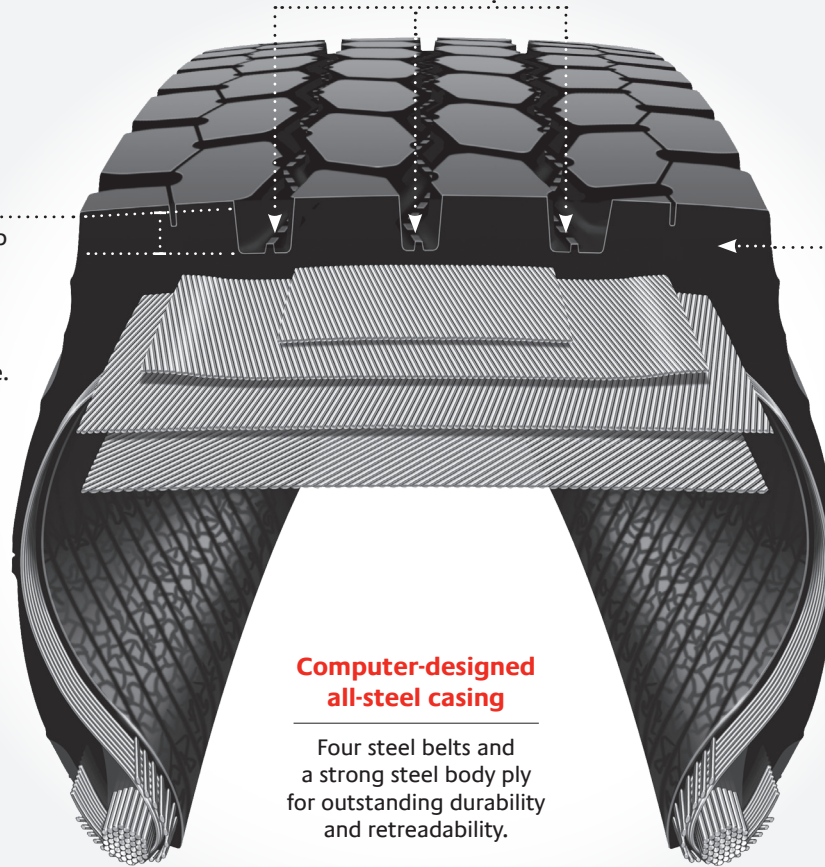

Combat capture and retention of casing-damaging stones.

Optimized cap/base tread

Long-wearing cap compound is engineered for superior mileage while the base compound shields the casing from damaging heat, enhancing retreadability for even more low-cost miles.

Greater tread volume

Wide, extra-deep 31/32" tread promotes exceptionally long life for high removal mileage.

Computer-designed all-steel casing

Four steel belts and a strong steel body ply for outstanding durability and retreadability.

Warranty and additional technical information is available at BridgestoneTrucktires.com, your dealer or truckstop.

Fact: Bridgestone casings are #1 when it comes to retreadability. It's true: Data from over 2 million casings prove that Bridgestone tires have the highest percentage of retreadability thanks to superior casing engineering. Higher than Michelin or Goodyear. Confirming what fleet managers have always known: A Bridgestone tire investment is a smarter tire investment. Get the facts at retreadinstead.com.

Prove it to yourself. Run the only test that really matters: Try the M770 on your tractors, on your routes, with your drivers and your loads – in short, in your real world. See for yourself how the extra-deep M770 can give you long tire life that cuts your cost per mile. Call your dealer today!
